

An "iMoneyMinute" is an idea that in less than one minute will give you a way to save time, save money, make money, or reduce your financial risk.

Save Money and Keep Your Lawn Looking Great!

When summer rolls around, we see those water bills go up. But you want to keep your yard looking nice and green, so you wonder if there is any way to make that grass green and use less water? There is! This lawn tonic recipe helps your grass get the nutrients it needs, so you can water less. And you can apply it just 3 times in the course of the summer and save a significant amount of money on your water bill.

You will need:

- One full can of regular pop (any kind-no diet soda)
- One full can of beer (no light beer) 12oz
- 1/2 Cup of Liquid dishwashing soap (do NOT use anti-bacterial dishwashing liquid)
- 1/2 Cup of household ammonia
- 1/2 Cup of mouthwash (any brand)

Directions:

- Pour into 10-gallon hose-end sprayer (other sizes will work too)
- In high heat, apply every three weeks

Here's how it works:

- The liquid soap is a wetting agent, helping the formula penetrate the roots.
- The ammonia promotes growth and turns your lawn green.
- The mouthwash kills the bugs and grubs.
- NOTE: Do NOT use anti-bacterial dishwashing liquid in the mixture as it will kill off important microbes in the lawn and soil that help "digest" thatch.
