

An "iMoneyMinute" is an idea that in less than one minute will give you a way to save time, save money, make money, or reduce your financial risk.

## Watch Out For UPS/FedEx Computer Virus

We always want to watch out for you, and when we come across information we feel could help you in a good way, we want to send it along.

It has recently come to our attention that there is a computer threat out there targeting holiday gift-givers, and it could affect you! It is an email scam where you get a message with the subject line something like "UPS Delivery Failure." It will say that they were unable to deliver a package sent on a certain date and asks you to print the attached invoice.

**Do not try to print the invoice!! It launches the virus!!**

When you open the attachment, it launches a virus on your computer. The reason this scam works is that out of the thousands of people the email gets sent to, chances are that some of them have sent out a package recently (especially during the holidays) and will click on the attachment.

When you order items, be sure to watch the tracking through the merchant or directly on the UPS/FedEx site, and call them if you have any questions or concerns.

Check out the rest of the story on [Snopes](#).

Here are the links to [UPS](#), the [US Postal Service](#), and [FedEx](#) so you can track your holiday packages (be sure you write down all of your order numbers!).
