Give Your Presentations Life

If you have to create presentations for work, you may know that anxious feeling that arises as you open PowerPoint to create another packaged and potentially boring presentation. At iMoneyCoach we are all about helping you do better at your job. So we would like to share with you a tool that helps you create and share dynamic presentations for FREE.

The [SlideRocket presentation creator](#) can be used by you as an individual or for company collaboration. Got a team that needs to put together a presentation from different cubicles, offices, or even countries? SlideRocket offers a solution. You can even import your old PowerPoint or Google presentations and give them new life. As a company you can share slides and assets from a library to maintain consistency and make updates easy.

Once you have created a presentation you can publish it and share the link with others, whether you email it out in a company memo, post it on your blog, or put it on your website. It is even available on mobile devices so you can reach farther.

We hope the iMoneyMinute is useful to you. If you have a different email address you would like us to use, or if you would prefer to no longer receive the iMoneyMinute emails, please email us at coach@imoneycoach.com.

We would also love your feedback on our emails! Please fill out [this short survey](#) to help us better serve you.
