

An "iMoneyMinute" is an idea that in less than one minute will give you a way to save time, save money, make money, or reduce your financial risk.

Dear Friend,

We are always trying to find ways to save our clients money. We have found a site where you can save 50% on everything you buy and want to share it with you.

Half.com is a site owned by eBay (but without the bidding!) where sellers list items for a specified price, often much lower than retail prices. What can you find on half.com? There are books, textbooks, music, movies, games, and video game consoles. This is a great way to save money on video games for the kids or on college textbooks. At 50% (and often more), the savings can add up fast.

If they do not have an item you want, you can add it to your wish list and be notified when that item is available at the price you want. So instead of paying full price for your entertainment needs, be sure to check out half.com.

We hope the iMoneyMinute is useful to you. If you have a different email address you would like us to use, or if you would prefer to no longer receive the iMoneyMinute emails, please email us at advisor@ifsweb.com.
