An "iMoneyMinute" is an idea that in less than one minute will give you a way to save time, save money, make money, or reduce your financial risk.

## Get Cash for Your Trash or Find Free Recycling

Recycling has become very popular in recent years. While there are many cities and HOAs that now offer recycling at no extra charge, in other areas it can be expensive to schedule recycle pick-up, even if it is through your trash company.

So iMoneyCoach wants to share some ways that you can help save the planet and **turn your trash into cash**. No, you won't make a fortune, but you can make a few dollars, and it can even be a way to teach your kids about the value of a dollar.

[Earth911](#) is a website that allows you to search for recycling centers based on the items you have to recycle (i.e. aluminum cans, household items, computers, old refrigerators, etc.) and your location. It populates a list of nearby locations, and you can click the links for each to get details, including whether they pay for certain items.

**Get the kids involved.** Recycling can be a convenient way to teach your young kids about earning money and about making an effort to help the environment. Whether they start recycling bottles and cans at home or set up a recycle center at school as a fundraiser, it gives them a tangible way to earn some cash.
