An "iMoneyMinute" is an idea that in less than one minute will give you a way to save time, save money, make money, or reduce your financial risk.

Use FREE Fonts to Give Your Document *Life*

If you need a great way to spice up your documents, flyers, posters, signs, etc. then [dafont.com](#) may be just what you need. You can search and download free fonts that fit exactly what you are working on.

For example, you can get a "college" style font if you are working on a brochure for tutoring or educational purposes. Or if you are decorating for a baby shower and the theme is pandas, there is a panda font you can use to print the baby's name.

The possibilities are endless!

The fonts at dafont are primarily free (free for personal use, and some fonts for corporate use request a donation), and it is easy to download and install fonts on your computer:
