Cost: US\$ 149.00

This course will teach you that money is the smallest part of your finances. And with the power of that knowledge, you can be well on your way to financial freedom! We will teach you a proven system to get out of debt (and stay out!), how to budget, how to rank expenses and control spending, methods for goal setting, and about the banking system.

Because we do not focus solely on the finances but also include the other areas of life, all of which affect and are affected by our finances, we help you get to a place where you can honestly LOVE your life.

Imagine a life of freedom. No more calls from collectors while you are trying to eat dinner with the family, peace of mind knowing you are saving money for your retirement, and power in being on top of your finances. Imagine never fighting with your spouse about money again. Imagine knowing that if your car were to break down tomorrow you have enough saved to get it fixed without breaking the bank.

The Financial Life Training System will teach you what you need to know to have this sort of peace in your life so you can spend your time enjoying life rather than worrying about it.
