“This program has helped so much more than our finances. I had no idea how much our relationship and our marriage would grow. We talk to each other more than we have in 25 years.”

MAGGIE DAVIS, GRAND JUNCTION, CO

IT'S NOT JUST ABOUT MONEY, IT'S ABOUT YOU.

“I read other books and the information was great, but I could never put it into practice. This program is personal, specific to me, and offers the accountability to make things happen.”

CAROL HODGES - WESTMINSTER, CO

SO, WHAT IS IT ABOUT?

Financial Life Coaching™ takes a unique approach to your personal finances. We do not promote a “one-size-fits-all” mentality, nor do we believe in a “quick fix” when it comes to your money. Your financial freedom is our vision, our purpose and our goal.

iMoneyCoach is a long-term, personalized, perspective to financial management, which sets us apart from other, traditional financial models. In our program, your Coach will walk you through an interactive process, as we look for barriers to your financial independence, and help you make the necessary changes to achieve success.

WHY DO I NEED A COACH?

Like any successful athlete, business person, or performer, you need someone who can make objective observations, pinpoint blind spots, clarify goals and encourage focused action toward your goals. You need a coach.

A COACH:

- Is Personal
- Is Private
- Is Professional
- Knows Money
- Knows Management
- Knows You!
